

PROFILE SUMMARY

Highly skilled **React Developer** with expertise in building dynamic and web applications Proficient in React.js and JavaScript (ES6+), with a strong understanding of state management and **API** integrations. Experienced in developing responsive and accessible UI/UX using **Tailwind CSS**

TECHNICAL SKILLS

- REACT JS
- JAVASCRIPT
- HTML
- TAILWIND CSS
- PYTHON
- DATABASE (MYSQL)
- REST API
- GITHUB
- VERCEL

LANGUAGES

- Tamil (Native)
- English (Fluent)

EDUCATION DETAILS

- Bachelor of Engineering in ECE at GCE ERODE (2020-2024)

CGPA - 8.10

WORK EXPERIENCE

PROFESSIONAL EXPERIENCE - WEB DEVELOPER

Regent Info Solutions2024-Current

- As an Developed and managed an Admin Panel using **React.js**, enabling efficient data management and user control. Implemented State and UseEffect management, API integrations . Designed a responsive and user-friendly UI using **Tailwind CSS** and Material-UI .
- Developed a responsive Landing Page using **React.js** and enhance front-end development skills. Implemented modern UI/UX design with **Tailwind CSS** and Material-UI, ensuring a visually appealing and user-friendly experience. Focused on performance optimization and reusable components for scalable development

Personal Project

- To strengthen my Frontend Development skills, I built replica of the Rise web using **React.js**, HTML, **Tailwind CSS**, and JavaScript. The project focused on creating a fully responsive design optimized for mobile devices, ensuring accessibility across screen sizes. I developed reusable components to enhance performance and reduce loading times, and integrated **Framer Motion** to deliver smooth animations and an improved user experience

INTERNSHIP

Inamkes Infotech - Full Stack DeveloperSep 2024 - Dec 2024

- Gained hands-on experience in Python Full-Stack Development with 4 months, working on Django-based web applications. Developed and optimized backend APIs, database models of MYSQL, and dynamic front-end interfaces using React.js and Django.

PROJECT

THE FUTURE WORK : DATA ANALYSIS OF GLASSDOOR JOBS

- Project: Data Visualization with IBM Cognos Analytics and Watson – Developed a data visualization project using IBM Cognos Analytics with Watson, leveraging HTML, CSS, JavaScript, Tailwind CSS, and data visualization libraries like Matplotlib and Seaborn for insightful graphical representations.

CERTIFICATIONS

- React.js Course – Simplilearn, [March 2025]
- Completed Project on The Future work:Data Analysis of Glassdoor Jobs by IBM
- Attended Internship at Pantech e-learning in the domain Artificial Intelligence and Machine Learning for 30 Days.
