PROFILE SUMMARY

Full-Stack MERN Developer with one year of hands-on experience, skilled in React.js, Node.js, Express.js, MongoDB, and JavaScript (ES6+), with expertise in API integration, authentication, state management, and responsive UI development using Tailwind CSS.

TECHNICAL SKILLS

Javascript (ES6)

Frontend

HTML , CSS , React Js Tailwind Css , Redux , React Hook ,Framer Motion , Shadcn

Backend & database

Node js , Express js Restful API , JWT , OAuth, Mongo DB

Deployment & Tools

Git , Github , Postman and Vercel , Notion Netlify , VS code

EDUCATION DETAILS

- Bachelor of Engineering in ECE at GCE ERODE (2020-2024)

CGPA - 8.10

WORK EXPERIENCE

PROFESSIONAL EXPERIENCE - WEB DEVELOPER

Regent Info Solutions   Dec 2024-Present

- As an Developed and managed an Admin Panel using **React.js**, enabling efficient data management and user control. Implemented State and UseEffect management, API integrations . Designed a responsive and user-friendly UI using **Tailwind CSS** and Material-UI .

- Developed a responsive Landing Page using **React.js** and enhance front-end development skills. Implemented modern UI/UX design with **Tailwind CSS** and Material-UI, ensuring a visually appealing and user-friendly experience. Focused on performance optimization and reusable components for scalable development

Personal Project

- Developed a Full-featured blog platform with a responsive and interactive UI using **React** and **TypeScript** . Built secure backend APIs using **Express.js** with J**WT authentication** and **bcryptjs passwords** for user protection . Implemented CRUD functionality for posts, users, and comments with **MongoDB** and Mongoose . Integrated protected routes, form validation, and role-based access handling. Deployed the application on Vercel for frontend and Render for backend, ensuring smooth and fast performance.

- To strengthen my Frontend Development skills, I built replica of the Rise web using **React.js,** HTML, **Tailwind CSS**, and JavaScript. The project focused on creating a fully responsive design optimized for mobile devices, ensuring accessibility across screen sizes. I developed reusable components to enhance performance and reduce loading times, and integrated **Framer Motion** to deliver smooth animations and an improved user experience

INTERNSHIP

Inmakes Infotech - Full Stack Developer   Sep 2024 - Dec 2024

- Gained hands-on experience in Python Full-Stack Development with 4 months, working on Django-based web applications. Developed and optimized backend APIs, database models of MYSQL, and dynamic front-end interfaces using React.js and Django.

CERTIFICATIONS

- React.js Course – @Simplilearn, gaining hands-on experience in component-based development, state management, and modern frontend practices

- Completed Project on The Future work:Data Analysis of Glassdoor Jobs by IBM

- Attended Internship at Pantech e-learning in the domain Artificial Intelligence and Machine Learning for 30 Days.
